

## Digital Education Mapping Researcher, TALEEM

[Apply Now](#)

Company: Tetra Tech

Location: Algeria

Category: other-general

### Project Summary:

MSI was awarded the Teaching and Learning for Education Excellence in the Middle East (TALEEM) activity in October 2022. Over its five-year period (2022-2027), TALEEM will conduct various multi-country research, training, and analytical support activities to advance student learning and success in the Middle East and North Africa (MENA). The Information and Communication Technology (ICT) Talent Development Initiative under TALEEM seeks to sponsor ICT networking certificates, lab equipment, software, and technology at local universities as well as to provide curriculum development at universities and through massive open online courses (MOOCs) to develop foundational partnerships and create long-term preferences based on open standards. The primary focus is MENA higher education ICT engineering departments, professors, and talented ICT students. TALEEM is conducting a mapping exercise of Algerian university computer engineering programs, private sector, and ministry ICT development initiatives. The information obtained during the mapping exercise will support the design and approach of the MENA ICT Talent Development Initiative's grant strategy for Algeria.

**\*\*Please note: Only Algerian residents are eligible for this position\*\***

### Position Summary:

The Digital Education Mapping Researcher will lead interviews in coordination with MSI's Technical Manager to complete the Algeria ICT Talent Mapping Exercise. The Researcher will work with MSI's Technical Manager to support data collection planning and analysis. This is a short-term position.
