

## React Developer

[Apply Now](#)

Company: Snaphunt

Location: Algeria

Category: computer-and-mathematical

### The Offer

Excellent career development opportunities

Work alongside & learn from best in class talent

Great work environment

### The Job

#### You will be responsible for :

Develop and maintain the front end of our web applications using React

Collaborate with back-end developers to integrate the front-end with the back-end application.

Write efficient and maintainable code using best practices and design patterns.

Develop and maintain unit tests for front-end code.

Use Node.js and related technologies to build server-side applications, APIs, and integrations.

Participate in code reviews and provide feedback to improve code quality.

Work closely with the UX/UI team to ensure a seamless user experience.

## The Profile

### Requirements:

Must complete Bachelor's degree in Computer Science or related field.

Must have minimum 4-5 years of professional experience with React.

Proficiency in implementing React Drag & Drop functionality.

Expertise in React Formik or other form development using React.

Strong command of Material UI / Tailwind / DevExtreme.

Experience with React Chart, Timeline, Graphs, and 3D libraries.

Proficiency in state management with Redux, including actions, reducers, and the Redux store.

Experience with Agile development methodologies.

Strong problem-solving and debugging skills.

Excellent communication and Ability to work independently and as part of a team.

If you are passionate about front-end development and want to work on challenging projects in a fast-paced environment, we encourage you to apply for this exciting opportunity.

## The Employer

Our client is a B2B SaaS company that aims to offer a cutting-edge Innovation and Product Lifecycle Management (IPLM) platform on the cloud to businesses worldwide.
