This role is based in Algiers. Your 'day to day':

- Plan and monitor supply and capacity in line with PMI/PMP guidelines.
- Organize and monitor all the international and local transportation activities to business partner.
- Coordinate process of definition of stock policies for materials and finished goods by collaborating with market planning and manufacturing to provide inputs on optimal production pattern resulting in minimal cost and optimal service to market.
- Develop and maintain optimal inventory projections and adherence to targets for the respective scope to meet demand.
- Plan, manage and control third parties' activities ensuring quality safety and security standards.
- Ensure that the right logistics management systems are in place.
- Ensure PMI Track and Trace policies are followed and compliant with the scanning of master shipping cases in the market.
- Work on preparation, deployment and utilization of the PMI standard operating guidelines & systems taking into account the nature of each type of products transported & stored.
- Monitor the implementation of regular reporting and KPI's related to budget, supply chain, cost control and process performance for all Customer Services processes in order to guarantee the total control of the operation.
- Implement and drive continuous improvement initiatives to

enhance overall supply planning effectiveness. Who we're looking for: - Graduate in logistics, supply chain, industrial engineering or any related field.- 3-5 years of proven experience in Supply Chain, Logistics within a fast-paced and dynamic environment.- Strong analytical skills with the ability to interpret and leverage data for decision-making.- Proven experience Planning & Replenishment Management and Third-Party Management.- Excellent communication and collaboration skills.- Strong organizational skills and attention to detail.- Fluency in English & French (Spoken and Written). Key things to know before you apply: - Your CV should be submitted in English. FIND A NEW PATH Philip Morris International offers you a new perspective in Algeria. Here, you will never stop exploring and discovering. We take on-the-job learning to another level, giving you every opportunity to develop your career and reach your full potential. This position will advance your experience with innovative technologies, services, and processes. Backed by a competitive salary and compensation package, you will work in a professional setting with clients and team members from all over the world. Philip Morris International: Delivering a Smoke-Free Future Philip Morris International (PMI) is a leading international tobacco company working to deliver a smoke-free future and evolving its portfolio for the long term to include products outside of the tobacco and nicotine sector. The company's current product portfolio primarily consists of cigarettes and smoke-free products. Since , PMI has invested more than USD 10.5 billion to develop, scientifically substantiate and commercialize innovative smoke-free products for adults who would otherwise continue to smoke, with the goal of completely ending the sale of cigarettes. This includes the building of world-class scientific assessment capabilities, notably in the areas of pre-clinical systems toxicology, clinical and behavioral research, as well as post-market studies. In November , PMI acquired Swedish Match – a leader in oral nicotine delivery – creating a global smoke-free champion led by the companies' IQOS and ZYN brands. The U.S. Food and Drug Administration has authorized versions of PMI's IQOS Platform 1 devices and consumables and Swedish Match's General snus as Modified Risk Tobacco Products. As of September 30, , PMI's smoke-free products were available for sale in 82 markets, and PMI estimates that approximately 19.7 million adults around the world had already switched to IQOS and stopped smoking. Smoke-free products accounted for approximately 36.2% of PMI's total third-quarter net revenues. With a strong foundation and significant expertise in life sciences, PMI announced in February its ambition to expand into wellness and healthcare areas and, through its Vectura Fertin Pharma business, aims to enhance life through the delivery of seamless health experiences.
